

# Introducing adriconf, a tool for mesa driver configuration

*Friday, 18 September 2020 16:45 (20 minutes)*

In this talk we are going over adriconf, where it all started and what is the current state of mesa driver configuration from a end user perspective.

We will also briefly talk about the MESA\_query\_driver extension and why we need it as well as future Vulkan extension/work on the configuration area.

## Code of Conduct

Yes

## GSoC, EVoC or Outreachy

No
